

# Close Quarters Clearance (CQC) Hostage Rescue

This training will establish and refine Standard Operating Procedures (SOPs) in regard to CQC hostage rescue operations. Our team will teach the principles and best practices of tactical entry and follow-on movement, and ensure trainees gain expertise in several essential tactical skills. Ultimately, this training will ensure all officers have a common foundation for operating as a team in CQC tactical environments related to hostage rescue operations. The tactics taught by Tomahawk will enable mission success for officers and the civilian population that they serve.

## Tomahawk's CQC methodology empowers everyone to be a leader

Our flexible methodology is based upon standardized tactics and driven by threats. We create a shared understanding of the goals and procedures and maximize team cohesion by enabling every officer to make decisions in a tactical environment.

All the Tomahawk instructors had real-world hostage rescue experience overseas, and they were able to effectively relay the hard lessons learned of their operations and what applies to a policing environment. It's the best training I have attended.”
